EASTERN ADVERTISING OFFICE.
The Rookery, Room 14, Chicago Building, New York Office.

Persons desiring THE TRIBUNE served at their homes or hotels in the city should leave orders at the counting room, by postal card, or through Telephone No. 931. Orders delivered promptly. Complaints of irregular delivery should be made to the office.

Papers at the Chicago Postoffice the first of the week are put in the mail for delivery on the afternoon trains, and will reach subscribers in the country Monday morning.

TUESDAY, JULY 23, 1889.

Lumber rates for scows were five or six cents above. New York exchange sold at 8 cents discount. Sterling was easy. The stock market was weak and dull. The Chicago produce markets were generally active, but averaged lower, though the tendency to change was not clear enough to quote less and at the closing sold dull to 1/2c low on all options. Corn was higher because the current receipts are scarcely equal to the needs of shippers, as compared with the early part of last month's receipts having been 1,000,000 bushels per day. Provisions were dull and weak.

The receipts of grain in Chicago yesterday were 1,000,000 bushels of wheat, 1,000,000 bushels of corn, 1,000,000 bushels of oats, 200,000 bushels of rye, and 40,000 bushels of barley. Total, 2,240,000 bushels, as against 2,000,000 bushels a year ago. For the seven days the Secretary of the Chicago Board of Trade states the visible supply of grain in the United States and Canada on Saturday consisted of wheat, 7,000,000 bushels of corn, 2,000,000 bushels of oats, 200,000 bushels of rye, and 600,000 bushels of barley. These figures are smaller than the corresponding week a week ago by 500,000 in wheat and 600,000 in corn. The visible supply of wheat for the corresponding week a year ago footed up almost 20,000,000 bushels.

Chicago pay has a spiritual ancestor in the report of the grand jury of Denver which indicates that Colorado's gang for murders consists of the State. The jury finds that many have plotted an organized system of lawlessness, which was assisted before any proposals for trials were made public, that not much was believed, and that some of it can be found. It finds also that they have three secrets, rings, warning, masked duelers, murderers, electric lights, gaslights, bombs, oil, matches, and stubbornly enough to have turned a penny, for some swindling on storage and grocers contracts to an unlimited extent. All this shocking by witnesses has been done within the last six months. Upon the suggestion of the Governor and the attorney-General the jury recommends that the State take immediate action to recover the money fraudulently obtained from the treasury. We presume this includes, at least it should, a recommendation that the citizens be sufficiently aroused to the general profanity. If any organization they will wear the whole State before long.

Baltimore, the New York heathen has been declared innocent, though he was many times found guilty yesterday by three such impartial juries. He was willing to admit bribery if he could be let off with a fine, but as the authorities were not willing to defer the arrangements for several his lawyers, would trial, and the case was completed. The New York World (Dem.) says: "Some of the leaders or bribers of 1884 assumed an exalted tone after their prosecutions had placed in charge of John D. Prince. Shall they now out of theft claim for them total exculpation?" The Herald (Dem.) says: "Baltimore under Mayor Latrobe has a police force of which as a strong service is entitled to the most unstinted praise. The Sheriff, Chief, Attorney, as prosecuting officer." It will be remembered that it was Mayor Latrobe who, at the time he was making numerous and greatly public confessions of a desire to reform the city service, secured the confession and conviction of this "strong service, Mayor, Sheriff, District Attorney" by testifying the New York Democratic political managers had to would give him "unobtainable pecuniary satisfaction" to have Prince elected. It is not of much consequence now what Latrobe thinks of it, since he is a private citizen, but the republican must be put down here to the proposition.

Kansas can address to the West are misrepresented through their fruits prevent that farm mortgages suffer because of the excessive taxes of three cents to the Boards of Trade of this and other cities. There was a time when they had widespread for such a change, but has corrected a great fear which the last two or three years. The influence of the commercial exchanges is now known almost absurd to a fund of over seven per thousands used in transforming the conveyance being that the seller has the advantage of enlarged productive which is enormous by comparison. Of course there are now cases when wheat grows rich on a month of speculative buying, as was the case last January. Indeed, there is strong reason to suspect that the Chamber Cartoon now represented by many members of the selling fraternity is due to the fact that they have attempted their money and profits, for which cause the speculators did not turn out too well. If the Inter Ocean had bought the market and brought about the favor that resulted in the higher prices they now denounce. They said that the crop of the Northwest would be a good one, and not about buying it as it does brought the supply of winter wheat could make little difference to the result. They succeed in convincing us to sustain by the fact that they had quite money by speculation in our summer and they had made it the selling business during winter's close. Now because during July with the fog that it does, they look for to consider that they would who have learned it does not be to the Inter Ocean which has more and similar who have but to differing to prevent [illegible] offering to prevent by cultivation of the soil are by selling wheat short in a bull [illegible] buying to consumers and purchasing of small lots, a few weeks of prosperous to realize upon account of the increased for consequently. But the action in this city is one to be [illegible] the [illegible] of a speculative [illegible] they would prefer [illegible] that is [illegible] [illegible] [illegible]

FOR SALE BY LEADING DEALERS.

CAUTION.

The wonderful popularity obtained by BURNETT'S PERFUME OF WOOD VIOLETS has induced many unscrupulous dealers to palm off so-called "Violet Extracts" for this delightful perfume. These "Violet Extracts" should on no account be compared with BURNETT'S PERFUME OF WOOD VIOLETS for the bouquet with the rose, and in this connection, for the information of the general public, we desire to state that we do not sell this perfume to Dry Goods or Department Stores, and we advise and urge the consumer to purchase of the reputable druggist, and thus secure Guarantee of the genuineness of the article.
